

SEPTIC TANKS

We provide quality septic tanks built to specifications for construction on both commercial and residential projects.

- Small domestic septic tank.
- 2500 litres capacity.
- Designed for occupancy for 6PE.
- Comes fitted with seals on inlet and out lets.
- Can be fitted with a small excavator where site access may be an issue.
- It can also use as an add on tank to your existing septic tank.
- This tank has also many uses ranging from water storage or farm yard run off.

- EN Certified 12566-1.
- Manufactured from 40N 10 Certified concrete EN 206.
- Achieve the required EN 12566-1 effluent quality without the use of an internal septic tank filter.
- Designed for occupancy of 8PE.
- Has water tight seals on inlets and outlets that are cast into the tank during manufacturing.
- Designed for shallow dig 1.5 meter or less.
- Designed so a small excavator can lift the tank. This is important for retro fits with legacy issue sites where access by truck etc. will be an issue.
- Inter locking risers can be supplied with concrete lids.
